Follow me, c'mon follow me
I'm the last known living disaster
Follow me, I'm heading off the rails
And I only wanna go faster

All we wanna do is have some fun
It's a shame the youth is wasted on the young
Follow me, c'mon follow me, c'mon follow me

When we were young there were so many things
That we swore we'd never do
Now that we're older, we've done them all
Will you help us to feel new?

All we wanna do is kill the pain
Injecting images into our brain
When we were young there were so many things
Yeah, when we were young

Wait, I just wanna start this over now
Before the night gets any older
Wait, I just wanna start this over now
Before the night gets any older

Follow me, c'mon follow me
I'm the last known place to save thee
Follow me and I will shelter you
From the "someday"s and the "maybe"s

All we wanna do is come in from the cold
It's a shame the wisdom is wasted on the old
Follow me, c'mon follow me, c'mon follow me

Wait, I just wanna start this over now
Before the night gets any older
Wait, I just wanna start this over now
Before the night gets any older

Wait, I just wanna start this over now
Before the night gets any older
Wait, I just wanna start this over now
Before the night gets any older

Wait, I just wanna start this over now
Before the night gets any older
