I've seen u since...
Take all I say... never react
I had to say most of it...
I promised I'll be nice from now on...

Hide it in every little chance I seem to hurt u
Hide me from everything I do that makes u doubt me

Hide it in every little chance I seem to hurt u
Hide me from everything I do that makes u doubt me

For all I try to say I shy away
I seem to hurt you
For every stupid shout it's thoughtless word
That makes you doubt me

Pa pa pa pa...
... most... I promise I'll be nice from now on

For every stupid shout it's thoughtless word
O I love u... sure, I love u... o I love u... sure, I love u

For all I try to say I shy away
I seem to hurt you
For every stupid shout it's thoughtless word
That makes you doubt me

Pa pa pa pa...
For all I try to say I shy away
For every stupid shout it's thoughtless word
Hide it in every little chance I seem to hurt u
Hide me from everything I do that makes u doubt me
