dont change your name  
keep it the same  
for fear I may loose you again

I know you want  
it's just that I am unorganized  
and I wanna find you when  
something could happen

If you come down  
We'll go to town  
I haven't been there for years

But I define  
wasting our time  
not doing anything here  
And you stealing nothing

We sit for days  
and talk about things  
important to us  
like whatever

We'll defuse bombs  
walk marathons  
and take on whatever to gather

whatever could gather.....x5
