Just how
How many times
How many times have I sat right here and seen that
skyline at twilight
And told myself I'm gonna be alright

But at the last light after saying goodbye
You can't rest at night inside your head
Yeah at that last light after sayin' goodbye
It's such a sad sight cause of what we said
(Ahh, oh)

[Whistling]

Now just how
How many times
How many times have I sat right here
And again that skyline
And again that twilight
And again tell myself i'm gonna be alright

But at that last light after saying goodbye
You can't rest at night inside your head
Yeah at that last light after sayin' goodbye
It's such a sad sight cause of what we said
(Ahh)

Goodbye, Goodbye, Goodbye, Goodbye
Goodbye, Goodbye, Goodbye, Goodbye
Goodbye, Goodbye, Goodbye, Goodbye
