

Granian "Not Just Yet"

Visit "[Not Just Yet](#)" on MotoLyrics.com

We have been waiting in a "not just yet"
We were wrong to ever suggest that this may end
Waiting, for this, all to, come true
End it here and find why not just yet

Can you leave the light on
We've been wasting all my time
We've been lacking all of this, Oh.

We have been seeking for an end to come
But we can't carry on like this knowing that they've won,
We've been,
Waving, the white flag,
Begins to be such a drag,
When you end with fear you'll know why not just yet

Can you leave the light on
We've been wasting all my time
What's on your mind
We've been lacking all of this
We've been wasting all my time
What's on your mind
We've been lacking all of this

We have been waiting in a "not just yet."
