Follow me on down this road,  
Where it ends, IÂ'll never know  
Life is crazy, you crash and you burn  
Ah well, you live and you learn, live and you learn.

Day to day, itÂ's all the same,  
Take me back to when it was all just a game,  
Nice to meet you, what was your name,  
I donÂ't even care now, because itÂ's all just the  
sameÂ...So I,

Take a step back, look at the sky,  
And watch the clouds just roll on by,  
I think of Today, well thatÂ's alright, but  
AinÂ't it funny how life just goes by.

The sun is setting now, darkness falls,  
Night is wild, no time to pause,  
Take the shots down, kill the dream  
Gain the confidence to just start to scream.

ItÂ's easy to walk away, keep astray, everyday  
But you know that just ainÂ't the way  
DonÂ't stop now, youÂ're doin fine  
Just have the courage to leave it all behind.

Take a step back and I wonder why,  
Just trust yourself and donÂ't deny,  
I think of today, well thatÂ's alright, but  
AinÂ't it funny how life just goes by.
