I hear you america snoring  
I hear you america snoring

Did ya see it on tv  
Or in your own backyard  
Gate's lapd  
And they called the national guard  
Then the tanks came rolling down  
Sunset boulevard  
And I hear america snoring

They want ta' legislate the moon  
They want ta' legislate the womb  
They wanna legislate all the things they hate  
They want ta' legislate this tune  
And I hear america snoring snoring  
I hear you america snoring snoring

Give wind time to blow  
The rooster to crow  
Plug my ears but I hear  
America

Oh oh oh

See the shoemaker and his shoes  
Sliver needle thread and glue  
He's closing up the shop  
Move it all to timbuktu  
Where the labor force is cheap  
And the rivers there run deep  
But I hear america snoring  
I hear you america snoring snoring america  
I hear you america snoring snoring america  
I hear
