

## Grant Lee Buffalo "Wish You Well"

Visit "[Wish You Well](#)" on MotoLyrics.com

See the end see the end of time  
From the widow's walk I feel the undertow  
It grows and my fishin' pole  
Like a willow bends toward the blackest hole  
To the hole  
See the film see the black and whites  
Circle stationed stupid to the tape that rolls  
My soul receives another blow  
From the flashlight of the city hate line  
Oh oh ooh ooh ooh ooh

I wish you well  
I tell you that it can be helped  
I told you it can be helped

See the bad dreams that you speak about  
And all the things you bring to light are comin' down  
Now everybody hit the ground  
Fear is on the march and in the lost and found  
These are the times to read between the lines  
Yeah my truck runneth over false prophet signs  
And road blocks  
In the road

I wish you well

I tell you that it can be helped  
I told you it can be helped  
I told you it can be helped

[los angeles has been hit - spoken]

Newspaper cloaks to wrap the truth  
Propagand-acid dropped on the youth  
It's easy to see like pulling a tooth  
No one in line in the ballot booth  
The dragon down south may blow some smoke  
Even the jester is drummin' up votes  
They talk about building morale and hope  
They're just building bigotry a better rope  
One that won't break one you can't even see  
One made of paper and policies

I wish you well  
I tell you that it can be helped  
I told you it can be helped  
It can be helped  
Oh but it can be helped
