Bella Linda, try and understand  
Bella Linda, I'm doin all I can  
Bella Linda, I'm only what I am  
It's so hard for me to say  
The things I really feel  
If I could I'd chase away  
The pain your eyes reveal  
The pain your eyes reveal  
From foolish things I've done  
The times that I let you down  
And I'll never change, believe me I try  
If you go away, you know that I'll die  
Oh I love you, please don't say goodbye

(CHORUS)

Bella Linda, try and understand  
Bella Linda, I'm doin' all I can  
Bella Linda, I'm only what I am

We've had bad times  
Through the years  
And though I've made you cry  
Think of me through tender tears  
And try to close your eyes  
And try to close your eyes  
To thoughtless things I do  
The dreams that don't come true  
Cause I'll never change, believe me I try  
If you go away, you know that I'll die  
Oh I need you, please don't say goodbye  
(REPEAT CHORUS TWICE)
