### Verse 1

"The suns not getting colder"  
Said the freckles on my shoulder, and the sunburn did agree.  
As they, they really like the plaid and hiding from the sun, with the SPF 30

### Pre Chorus

Let the waves come and wash away.  
Any Plans that you have made.

### Chorus

In the Summer, you shine just like the Sun.  
In the Summer, time flies by, one blink and it's done.  
Let the waves come and wash away.  
Any Plans that you have made.

### Verse 2

I never thought I'd be here,  
Where leaving is my biggest fear,  
Cause I don't want this to end.  
Cause I'm happy, sitting by a Palm tree.  
Laying In the sunshine, that covers me.

### Pre and Chorus

### Bridge:

All of my skies, are blue once again.  
Because in love, you look past who I've been.  
Now I Know,  
That without you I'm nothing.  
But with you I'm something more. X2
