

Grapefruit "Deep Water"

Visit "[Deep Water](#)" on MotoLyrics.com

Torn apart I sit and wonder and think double way to see
you

Been so long since you been gone and I just wanna be
near you

I'm swimmin' in the deep water and I really don't think
that I ought to be

Understand I was the man you wanted to be somebody
I could be too and more for you but without you I am no
one

I'm swimmin' in the deep water and I really don't think
that I ought to be

If you want to help someone, if you want to save me

Come on, come on, come on, come on do it

Can you hear me beggin' you, show a man some mercy

Come on, come on, come on, come on do it

You know your fascination brought me to you

Your last inclination

I'm in deepest, deepest, deepest deep water, yeah

Deep water

You gave me understanding, you gave me all

And I need your helpin' hand

I'm in deepest, deepest, deepest deep water, yeah

Deep water, yeah, deep water, deep water, deep water,

deep water, yeah, deep water, deep water
