

Grapes Of Wrath "A Very Special Day"

Visit "[A Very Special Day](#)" on [MotoLyrics.com](#)

All I that sun
seems too big to be enjoyed
it's time to pass the buck
missing hit, double up fit after fit
'till I can catch my breath
And I found
it's a very special day
when we make a magic crown
make your way
through a scary shimmer town
it's a very special day
Push alone
weaving over bridges home
with coffee canterloin
safe at home
to old sixties sounds we shake
with words out of control
And I found it's a very special day
when we make a magic crown
make your way

through a scary shimmer town
it's a very special day
And I found it's a very special day
when we make a magic crown
make your way
through a scary shimmer town
it's a very special day
And I found it's a very special day
when we make a magic crown
make your way
through a scary shimmer town
it's a very special day
There again
so all the ties that bound us when
we needed them the most
