"From The Heart Of Me"

Voices slide down off the mountain, sunlight turning
red

Falls on the earth and it spreads
Even the families lower their heads as they ride

Age old faces of the mountains looming naturally
I wonder if theyre looking at me, their monumental
eyes I can feel

In the glow of the twilight the thought of home
Reminds me now Im reaching out to you
Anything I can do to be safe and warm in your arms

All I have from the heart of you

Id meet you anywhere in the country or anywhere on
the sea
All over the world it could be I would follow you with the
heart of me

Remembering you hold me tight in tomorrow mornings
light I will fine you

When I awoke the stars were out and shining, shining
for you and me

All I ever wanna be is save and warm in your arms
All I have, from the heart of me
