You must leave, now take what you need you think will  
last  
But whatever you wish to keep, you better grab it fast.  
Yonder stands your orphan with his gun;  
Crying like a fire in the sun.

Look out; all those saints are coming through  
And its all over know baby blue.  
And its all over know baby blue.

The highway is for gamblers, you better use your  
sense.  
Take what you have gathered from coincidence.  
The empty handed painter from your streets  
Is drawing crazy patterns on your sheets.

The sky too is folding under you,  
And its all over know baby blue.

All your seasick sailors, they are rowing home  
All your empty-handed armies are all going home.  
Your lover who has just walked out your door  
Has taken all his blankets from the floor.

The carpet too is moving under you,  
And its all over know baby blue.

Leave your stepping stones behind, theres something  
calls for you  
Forget about the dead youve left, they will not follow  
you  
The vagabond whos rapping at your door  
Is standing in the clothes that you once wore.

Strike another match go start anew,  
And its all over know baby blue.  
And its all over know baby blue.  
And its all over know baby blue.
