Ooh

The plan  
Was to let me down gently  
I know  
The game  
Was to call it temporary  
Oh

Boy be careful what you wish for  
Cause you might get that and so much more  
I won't shed a tear  
If you don't want me here  
Boy I'll give you

Space  
In the closet where my clothes should be  
In that empty bed without me  
Now I'm walking out the front door  
You got exactly what you asked for  
Space  
In your phone where it said my name  
Where I tore my picture out your frame  
And I won't be around  
When you figure out  
You got exactly what you asked for  
Space

Now wait  
This ain't no way to be treated  
Mmm  
Mistake  
You can't have your cake and eat it  
Na Na Na  
Cause any real man would up and leave  
But I guess that's more than you can be  
Let me help you out  
I'ma leave right now  
Boy you got your space

Space

In the closet where my clothes should be  
In that empty bed without me  
Now I'm walking out the front door  
You got exactly what you asked for  
Space  
In your phone where it said my name  
Where I tore my picture out your frame  
And I won't be around  
When you figure out  
You got exactly what you asked for  
Space

Where my kiss should be  
In your arms where they used to be holding me  
In your car  
On the passenger side  
There's an empty seat  
Where I used to ride  
Space in your mind when you think of me  
Cause I'ma bout to be  
A memory  
Now you've got your space

Space  
In the closet where my clothes should be  
In that empty bed without me  
Now I'm walking out the front door  
You got exactly what you asked for  
Space  
In your phone where it said my name  
Where I tore my picture out your frame  
And I won't be around  
When you figure out  
You got exactly what you asked for  
Space

I'll give you your space  
You got your space  
You got exactly what you asked for  
Ooh baby  
I'm so gone  
You got me saying bye baby
