Well, dizzy aint the word for the way that youre making
me feel now

Well, I need some indication, girl, if all of this is real
now, tell me girl now

Well, Ive heard it said theres something wrong in my
head, now

Got to help me, girl, now

Could it be infatuation or am I just being misled now?

Little bolt of inspiration way you strike me now

Sparking my imagination, got the lightning now

Cause me such excitation, got the lightning now

bout to end my suffocation, come on strike me now

Little bolt of inspiration way you strike me now, shes
back in my imagination
