It seems like I've been here before
Fuzzy then and still so obscure
(Goodbye, goodbye, goodbye, goodbye)
And I don't want to see anybody cry
Meet me some mornin' in the sweet by and by, by and
by, by and by

Song comin' on
(Sweet love will bring to me)
So pleasin' to see, come and gone
(Goodbye, goodbye, goodbye, goodbye)
You don't have to tell me why
Meet me some mornin' in the sweet by and by, by and
by, by and by

It ain't 'cause I'm the only one left darlin'
About the time the sun rises west
Feelin' groovy
Lookin' fine

Think I'll come back here again
(Think I'll come back here again)
Every now and then from time to time
(Every now and then from time to time)

My how lovely you are, my dear
The ball game has gone much too far my dear
Sing to me, do your thing to me
I'll meet you some mornin', meet you some mornin'
In the sweet by and by, by and by, by and by
