(do not stop on tracks)

I went down one day, I went down one day to see a
gypsy woman,
Just one old day, yes I did,
I want to find out, I want to find out,
I want to find out, I want to find out now,
What's wrong with me and my baby.
We ain't gettin' down like we used to do,
I mean it's pretty good now, but there was a time,
When it didn't work too well.

I went down to see this gypsy woman, you understand,
I told her my story, I told her what was goin' on.
And she told me, man she said, all you need, all you
need,
She said all you got to have, oh lord,
Just a touch of mojo's hand, oh bring it back on,
And it feels pretty good, yes indeed.
