If you wanna know what time it is
You don't have to ask
If you wanna know what hers and his
You don't have to ask

If you wanna know what's real or not
You don't have to ask
If you wanna know where to find your spot
You don't have to ask

You don't have to ask
You don't have to ask
You already know
You already know

If you wanna leave your troubles behind
You don't have to ask
If you wanna go away and lose your mind
You don't have to ask

If it's peace that you're looking for
You got the key to every door
You already know

If there's a way out, you'll find out
And see all and be all
You'll never wonder what spell you been under
To make you forget all this time

If you're looking for the way
You don't have to ask
You can see it plain as day
You don't have to ask

If you're trying to find what's true
Just take a look at all of you

You don't have to ask
You don't have to ask
You already know
You already know
