

Gratitude "Dream, Again"

Visit "[Dream, Again](#)" on MotoLyrics.com

She's always sayin' maybe we'll never know
And I can't hear it for all my fears
I'm too busy prayin' wishin' for what I should
Do or say to get my way, oh maybe well never know

We're on our way, it's never done
All of the joy and pain
We're on our way, it's never done
All of the joy and pain
Dream again, dream again

The windows shuttered the big day never comes
The gift is giving what comes with it
Celebrate the birth at any age
Eat up grow up shut up measure up

We're on our way, it's never done
All of the joy and pain
We're on our way, it's never done
All of the joy and pain
Dream again, dream again, dream again

We're on our way, it's never done
All of the joy and pain
We're on our way, it's never done
All of the joy and pain

We're on our way, it's never done
All of the joy and pain
We're on our way, it's never done
All of the joy and pain
Dream again, dream again
Dream again, dream again, dream again
