You will never see... heaven

Take my hand and walk with me until the end  
You will never see heaven

Come and walk with me my friend  
I will guide you to the end  
Into the grateful pit  
Into the ever black  
Where there is no return  
You will forever rest

You will never see heaven

I'm the one to set you free  
I release you from this life you live  
I seal your destiny  
And you will writhe in pain  
As I make you one  
With eternity

Take my hand and walk with my until the end  
You will never see heaven  
Joh.3: 16 + Marc 15: 34  
Burst of laughter when you die  
Your belief won't save you now  
In your pit you lie naked  
Forever dead and mutilated

Come and walk with me my friend  
I will guide you to the end  
Into the grateful pit  
And you will write in pain  
As I make you one  
With eternity

Take my hand and walk with me until the end  
You will never see heaven
