

## **Grave Digger "Liberty Or Death"**

Visit "[Liberty Or Death](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Brothers in arms, see the red flag  
Blow for you boldly in front at the stack  
Around the banner join our troops  
The weapens are sharpened waiting for attack

Watch out the morning red, upon the hill  
(Enemies) they're out to kill  
Forward the password, it's freedoms breath  
The key to independence, liberty of death,  
liberty of death

If the first has died, prepare for the act,  
from the blood of our dead heroes,  
breeds a new pact,  
never surrender, never give up the faith  
ther's only one answe - liberty of death

Watch out the morning red, upon the hill  
(Enemies) they're out to kill  
Forward the password, it's freedoms breath  
The key to independence, liberty of death,  
liberty of death

From the ashes of our bones  
Flames blazing high  
Illuminate the enemy, blood red in the sky

Watch out the morning red, upon the hill  
(Enemies) they're out to kill  
Forward the password, it's freedoms breath  
The key to independence, liberty of death,  
liberty of death
