

Grave Digger "Stronger Than Ever"

Visit "[Stronger Than Ever](#)" on MotoLyrics.com

I was an man with no future
A bird without wings
I crawled through the desert
With nothing to drink

Searching and searching
Time after time
Looking for new horizons
And you were right here by my side

Stronger than ever
Stronger than ever before
Stronger than ever
Stronger than ever before

Now I'm as strong as a lion
And I can run like the wind
I can jump through the fire
'Cause you're here with me

Higher and higher
Together we fly
Nothing can bring us down
'Cause you're right here by my side
