I'm fighting, I'm killing, just like a man
Sanding, defending, a gun in my hand
Look in my eyes, can't you see they're so cold
I'm a fighter, I'm a warrior, I'm twelve years old
Look like a kid, but I learned how to steal
Play children's games, but my killing is real
Once was a kid, just normal as you were
Then soldiers came, killed and they burned
I lost my home, but I found a gun
I take their lives, just like they have done
You took my dad, you killed, you stole my youth and
Took my mum. You raped. I take your lives now

[Chorus:]

I'm a little warchild
I kill with an evil smile

I'm a little warchild
I shoot and death you dial

I 'm fighting. I'm killing, just like a man
Standing, defending, a gun in my hand
Once was a kid, just normal as you were
Then Soldiers came, killed and they burned
I lost my home, but found a gun
I take their lives, just like they have done
