Tears are falling as I sit here again  
The night just has fallen and lonely I am  
I need to adjust myself and practise to be alone  
My mind is messed up and my head heavy as a stone  
I scream out loud and I wish someone could hear my  
despair  
I'm searching for some silence and I'm searching for  
some care  
Nobody really knows me who I really am  
I got so many words unspoken in my head  
Do you want to know what I fear  
Can you understand my tears  
I'm easy to bring down  
I'm everybody's clown  
Don't ask me to do things that I dislike  
I'm already feeling bad and worse I might  
I'm not much of a rejecter so I got myself to blame  
I'm weak and wounded and to that you can add lame  
I scream out loud and I wish someone could hear my  
despair  
I'm searching for some silence and I'm searching for  
some care  
Nobody really knows me who I really am  
I got so many words unspoken in my head  
Do you want to know what I fear  
Can you understand my tears  
I'm easy to bring down  
I'm everybody's clown  
Close my eyes, close my ears, close my mouth  
And I wish it all disappear  
I can no longer cope with this life  
And I'm so filled with fear  
Can you tell by looking at me  
That something is wrong  
I have eyes but the things that I see  
Won't please my mind
