

Grave Flowers "Different Moods"

Visit "[Different Moods](#)" on MotoLyrics.com

In the fields of loneliness
I'm standing lost again
I wish I could tell you
How I feel inside

Life isn't a dream that's going on forever
When I'm dead and gone I hope I'm feeling better

I can't describe my emotions
Can't put them into words
I do not often cry
I want love but I just hide

Life isn't a dream that's going on forever
When I'm dead and gone I hope I'm feeling better

I have felt the bitterness
I have felt the joy
I've been in different moods
All my life
No state seems to please me
I wonder who I am
My flame for life is fading
Save me if you can

In the death valley lonley
I'm standing lost and cold
My flame is burned out
I'm no longer alive

Life isn't a dream that's going on forever
When I'm dead and gone I hope I'm feeling better
