I had to do it, I had to do it I had no choice
I had to do it, what would I tell my boy?
I had to do it, I haven't found work since june
There's food and the medicine and christmas is
coming soon. I had to do it.

Now don't you start talking about morality
You'll only start me thinkin' about my mortality
'cause it's so easy to judge me when you don't really
think much of me
And you've all got plenty of money

I had to do it, I already made the plan
I had to do it, I hired every man
In my opinion crime is a sacred cow
Should I wait forever or take my compensation now? I
had to do it.

Now everything was goin' so smoothly
Til I figured out the crew I hired were just using me
So I gave them the slip and I unbuttoned my lip
Cause I know when to quit

I can't undo what I've done but if I'm good could I
please see my son?

I had to do it, I walked away with just some scars
I had to do it, I'm safer behind bars
The crew are resting they're all taking the big sleep
A promise is something you should always keep

I had to do it
