I lost my resolve
I lost my resolve
Something in my reasoning was flawed
Cause I'm trying not to
But I end up doing it all the same
I'm trying not to
But I end up doing it all the same

I made up my mind to leave you behind
But I'm back here to find
Why I made up my mind

I lost my resolve
I lost my resolve
Back to the bottom of the pit I crawl
Cause I'm trying not to
But I end up doing it all the same
I'm trying not to
But I end up doing it all the same

I tried not to see what you see in me
Cause if I believe I'll never leave

I lost my resolve
