One step in front of me is home  
Rootless...rootless...rootless

Grass and concrete make me feel free and empty  
Then I can forget everything that happened before  
today  
When you threw me away you said you were gone to  
stay

Now I'm rootless...rootless...rootless  
One step in front of me is home  
Rootless...rootless...rootless  
One step in front of me is home

So I'll stick out my thumb or maybe just run this  
highway down  
And when it ends I'll keep walking until it ends again  
And if I don't turn back that will just support the fact

That I'm rootless...rootless...rootless  
One step in front of me is home  
Rootless...rootless...rootless  
One step in front of me is home

Rootless  
I'm rootless
