

Graveblankets "Safety Net"

Visit "[Safety Net](#)" on MotoLyrics.com

I can't be your safety net anymore
I hang around all day to see you finally take the fall
I can't be your safety net anymore

You've outgrown me little child
You'll see it yourself in a little while
But oh I can't pretend
I thought our time would never end

I can't be your safety net anymore
To see you trip and catch yourself is more than I'll
endure
I can't be safety net anymore

You disappear for days on end
And then you say "it's always good to see you again"
But I never learned
That you always had to return
Life without risk isn't life at all
When you can walk and run but still love to crawl
You still love to crawl

I can't be your safety net anymore
