Verse One: Too Poetic/Grym reaper

Yo, hah yo, rahh, yo, yo

Yo, yo, yo...

Yo, I got stress on my brain that causes chest pains  
Inside the best frames ghetto blood clots is scored by  
slug shots

And drug spots, will leave you too pour to move out  
Or get a new house, it's like livin in a war walkin  
through shootouts

And you doubt God exists, when hard fists  
Be poundin on your head like jackhammers  
You're trapped in the black drama, you hear the  
laughter

Seconds after that you fade out, you're played out,  
you're laid out

Your heart nearly gave out, you're lucky that you made  
out

With just a few scars when the beating ends

The streets [sniff] let ya breathe again

But evil men, will soon be on the receiving end

Of Universal Law, I'm callin on the meek and the poor  
To fight back and never forfeit the day you have to go  
to war

With forces that are armed upon the seven continental  
borders

A mental fortress is essentials to absorb this

My sword hits the human orb until it orbits

In the art of war kids see Grym Reap be morbid

Since pieces of the lost civilization in the past

Had my photographs etched inside of pyramids

To laugh at this revelation, without 365 days of  
concentration

And twenty-four hour meditation, would be foolishly  
pagan

I'm ancient as 'amen', see I stay Grym

Throwin fools in in a pit full of pit bulls to be shaken

Or strapped to the crossroads of Hell and inner sin

Which trap the sinners in, to sell such in Sing-Sing

I bring Grym tidings, tidal-ed/titled your wave all not  
exciting

Stop riding the dick, start writing your own shit

Cause I stick figures that think they fat and can't rap  
wind blast  
I make em Slim Fast, lookin like stick figures  
I'm all that, I bag chips at concerts and shows  
Get more panties than h\*es that boost Victoria Secret  
clothes  
Foes is tagged like ex-foes toes at the coroner's  
Kids with cold feet rise and fall like the barometer  
Grym will mentally chop your career  
See shit is locked down here, like penitentiary blocks in  
tears  
Escape outta your ducts every time you hear my name  
You better duck fate, or catch a -uffin- face full of duct  
tape  
You get smacked like a trick that sniffed off her money  
Then smoked like Rzarector with the blunts dipped in  
honey  
Verse Two: Rza/Prince Rakeem/Rzarector

Rotate your head like a gyro, my hair grows in knotty  
spirals  
Feet resembles Christ's description from the Bible  
Water-walker, immune to all physical torture  
Pull out fast in a Porsche, upon a double-crosser  
My rise up in the morning like a Phoenix  
And blast iron cells into a low blooded 'nemic  
The imperial material's venerial  
MC's get murdered in serial, you can't uff with the  
material  
Unorthodox paradox, my ish is seen wide-screen  
Magnavox  
Grabs thought like Doctor Octopus  
Cause war like the grandson of Kush  
I'm hangin devil's heads on a evergreen bush  
Sugar-frost sorceresses bitches get exhausted  
Pussy lips be drippin like leaky faucets  
Undercover C-Cyphers sprayed up like windshield  
wipers  
While I'm guzzlin Piper's, changin my son's ishy-butt  
diapers  
Dime piece trapped in sync like many time piece  
You get stampeded by the wildabeast  
A rap dast' plus tracks black like Chow Yun Fat  
Oppositional forces get their eardrums flat  
Common denominator, I swing the mic saber like Vader  
He was fooled by the inter-pre-ataion made from a  
traitor  
MC's get their wigs blown, trounced off my fistbone  
Choked from my death, every time they break a  
wishbone  
Eventually I knew the whole world would mention me

Potentially I have the key to make G's  
MC's breeze on my tracks, I rock the fruit with the trees  
Killa bees spread rapid like diseases  
See it's, like the second coming of Jesus, of Nazareth  
Be fabulous, raise the dead crowd up like Lazarus  
Hazardous vocabulary attacks be beautiful  
Acoustical notes we provoke, it comes out musically  
dope  
Homies realize they just can't cope  
The hair, bustin out the head resembles fire and smoke  
Loc  
Verse Three: Frukwan/Gatekeeper

I blast watts in circuits like General Monk-Monk was  
Turkish  
My science is divided deep into your central nervous  
Pervert area codes peep this murder  
I'm boxed-in, suckin' hologram , inhalin oxygen  
Parallel world of crab homies and sea shells mix  
I pierce my and saw right through you pelvics  
I'm hell stricken bomb, wrapped in trees of palm  
Physical existence is descendants of Allah  
I travel at high rates, Weaker men are primates  
That either migrate or get burnt to the stake  
I feed off lyrical light beams of amphetimene  
My terminology is panatomic like lobotomy  
Crazy el loco, Gas homies like Sinoco  
Flush 'em like Presto, Blast in your chest bone  
I raise from the shore, like Sodom and Gomorrah  
Attraction Flashin a 4-wheel drive Ford Explorer  
While mucus lies within the center of the Rubik's  
The roots of the wine induced the enzymes that tried  
your nucleus  
Turmoil boilin appointed, homies rubbin off my style  
like a ointment  
Lost in the Sahara, From trial and error  
Confused with 3 meals for Sister Sara  
Rahh! Bearer, Digestin minerals in abundance  
Because the dead is not known to return from the  
dungeons
