Yo don't bother me kid  
Let a nigga live plus eat  
Bless the wiz and protect my seed

[gatekeeper]  
I filter distortion like a magnet  
Attract rappin bandits  
Stretch em and blast em over the canvas  
Blatant replies to that blast my exercise won't be  
televised  
Due to the rise of spirits or my transparent  
perseverance  
Fuck a publishers clearance, gatekeep's runnin  
interference  
Yo, you can dissect it  
The black prospecta  
I'm cold as a pirate's luger  
Choke on my hymic maneuver  
I breathe life in the fire  
When my designs are tight like pliers  
Born in a pillow of barbed wire  
Taught by ebenezer scrooge in my mom's church choir  
The death stalker  
New york trendtography  
The g-o-d, 120 degree geography  
The bomb thick iron skin without a blemish  
Black art of war chemist  
Carry out the death sentence with deadly vengeance  
What I'm seekin is your head on a skillet  
Soakin in burgundy liquid  
Self inflected wounds fill pounds in grant's tomb  
And more damage than a monsoon  
Niggas explodin like aquatic moons  
I mutate your functions  
Like a devine evil after midnight in broadway junction

[gatekeeper & grym reaper]  
Keep it pumpin, yo, yo, yo  
Anything you're given can be taken away  
Any place anywhere anytime any day  
Gravedigga forever so whatever kid  
Hip hop is like the deadliest biz

But yo can a nigga live, pay the rent, bless the wiz  
Master the art and still not get blast in the heart

[grym reaper]

You're just a weaklin  
Seekin to peep grym's steelo  
I sting like mosquitoes  
Ten times as lethal  
The skill of my tongue is similar to attila the hun  
Swingin a sword grym is gruesome  
World renown like hunger  
The mighty hunter in the concrete junga  
Doper than ganja  
Conquer any style you can conjure  
Take your momma's breath away like anacondas  
Fronters get cast asunder  
Lightening fast I bring thunder  
Ancient rules blast the mic  
Crushin fools paradise leavin you parasites under  
Ground, beef is shredded, paramedics'll greet you  
I defeat crews with parametric eq's  
All types of anastetics'll be used  
My pressure's like the barometric when I squeeze you,  
hahaha  
Removed of this earthly ball of clay  
Let the chips fall where they may  
I'll be servin you all day everyday  
Consider you a serious threat, heh anyway...

[gatekeeper & grym reaper]

Gravedigga forever so whatever kid  
Hip hop is like the deadliest biz  
But can a nigga live, pay the rent, bless the wiz  
Master the art and not get blast up in the heart  
Gravedigga forever so whatever kid  
Hip hop is like the deadliest biz  
But can a nigga live, pay the rent, bless the wiz  
Master the art and not get blast up in the heart

What, yo (yo)

Gravediggaz (forever)

'97 and beyond (beyond) word is bond (word is bond)

Keep keep keepin it on to the break of dusk to dawn

Yo, yo, yo, yo

Rzarector, undertaker, gatekeeper, the grym reaper
