Cruel coldness turns my heart to ice
heavy snowy clouds,
covered the nightly sky
Snow is falling, wind is blowing
and its cold.

Blood in my veins got stopped,
woulded i await my last hour
hen the snow covers my body
when the icy ship takes me
to the land of the gods.

A dream makes union with reality
cold snow hurts my eyes

The forest is far from here
and my horse is dead

I lost my last battle
victory was so near....

in the snowy bed

I found my peace

Now I'm waiting for drackar

Gods promised me

it will come soon

Blood in my veins got stopped,
woulded i await my last hour
hen the snow covers my body
when the icy ship takes me
to the land of the gods.

A dream makes union with reality
cold snow hurts my eyes

The forest is far from here
and my horse is dead

I lost my last battle
victory was so near....

in the snowy bed

I found my peace

Now I'm waiting for drackar

Gods promised me

it will come soon
