Moment of silence blackened my eyes
Come through your dreams, voices from beyond
Call your name, invoke your pain
Guardian angel sleep, tears in their eyes
Deep from the [Incomprehensible], the shadows
arrives
While the wall of glasses reaches the sky
See the death in your eyes

I feel how my strength is growing
I wait for the dawn to come
The earth of mankind is bleeding
For the last sentence of mortal life

Emptiness, fear and despair
Shadows move where light should be
Feel and see this dying world
Through demon eyes I cry, cry
Through demon eyes I die

By life betrayed to endless sleep
To live without a dream
Once stands straight with faith and pride
Now drenched in blood I lay

Dark dreams of the past, calling back to me
Shadows that embrace me with wings of frozen fear
Hear the silent whispers which makes my dream come
true
Feel the darkest velvet, breath between the dreams
When the veil of death covers up your mind
Once again the path of dark painted in blood
Kill or be killed, live for the ancient ones

Guardian angel found their end as blood rains from
the sky
Demons of the ancient world sacrifice their soul
Across the waves the dragons fly bringing the evil sight
See the fearsome death reflecting in your eyes

I feel how my strength is growing
I wait for the dawn to come

The earth of mankind is bleeding
For the last sentence of mortal life

Emptiness, fear and despair
Shadows move where light should be
Feel and see this dying world
Through demon eyes I cry, cry
Through demon eyes I die
