Dark powers manifest  
Spiteful horrors crush the sky  
Escape from the twilight of a blackened mind  
Blood of our enemies  
As time shows no change  
Embrace by the veil of malicious death  
A story told of suffering, blood and pain  
Screaming of hate the demons now descend  
Smell of dying flowers  
Enchanted voices dies  
War cry from the darkness, loud and weird  
Resistance of mankind  
A small flame of hope  
Show no mercy, the time has come to fight  
The world is dying and here we all die  
Screaming, crying, fighting with fear  
Into silent shadows  
From nowhere to the deep  
While the wicked soul are still crying in despair  
Children of the night  
They shall rise again  
Shining like the blood of forgotten unlight  
By nocturnal powers fall into the abyss  
Slaves of gods - prepare to die  
Prepare to die

Darkness hold the secrets of every human fear  
Beside the ancient lake - beneath the spelling moon  
Prophecies in blood - thunderstorm and rain  
Across the field of burial ground  
Storm of death swept away defence  
Fight for the truth, die for the faith  
Damned in fear, fall into the depths  
They coming again and again  
For victory we ride  
Revenge of our land  
The time when we will strike back  
With swords in our hand  
With straight in our heart  
Again we march side by side  
Remember the last breath  
Of killed human friends

Remember the pain in their eyes  
For revenge of their life  
We fight until the end  
With honour and pride we die
