Striking over oceans of blood
Over kingdom in fear they march
The shadows rising from last sleep
The darkside will arrive
Storms of evil, thunder and might
Tormented souls awake
Creatures of the darkest night
As damnation reach the sky

Beneath a veil of sward
Embracing land of light
Reflections of deepest hate
Die - for centuries of dark

Swallowing the moonlight sky - conspiracy of pain
As darkness falls upon thy face - prophecies in blood
And tainted sky where angels cry - conspiracy of pain
The wolvern screams of deepest hate - prophecies in blood

The dying secrets of decay
Caressing shadows, demon's slave
Upon the throne of pain
Immortal screams again

The ending of the human earth
Breaking silence, falling rain
The time has come to die
Has come to die - die

Here the whispers in the wind

See the burning flames clawing at the skies
Death's not far away
Nature dies of massive cries

Somewhere deep within the night
They riding on the death
Bringing blood an painful fear
Forever in this land
Deeply sighs and spread their wings
As blindness falls upon

And armed with the seals (of) pain
Serenades in blood

Beneath a veil of sward
Embracing land of light
Reflections of deepest hate
Die - for centuries of dark

Swallowing the moonlight sky - conspiracy of pain
As darkness falls upon thy face - prophecies in blood
And tainted sky where angels cry - conspiracy of pain
The wolverine screams of deepest hate - prophecies in
blood
