Reinvent your way of life
The way you think and spend your time
Let us lead you to the light
Consumed until you've come out right
Hey, if you ain't with us, you're against us!

And a bbq nation awaits us all
Only one god- "grill" indivisible

Sex n booze n rock n roll
The things that mean the most of all

We're coming for you now!

Whitetrash, rockn'roller, biker, trucker, and blue
collar worker
All share the same one vision
A newborn nation of revision

This is declaration across the nation
A revelation of meat inflation
A revolution from evolution
The only solution, retribution
Hit the streets with the bbq nation
Unstoppable force runnin' cross the nation
When ya white flags' raised, you won't be
surrendered
Your only salvation, the bbq nation!!!!
