Taking what you want  
While stealing what you need  
Looking all around  
Or finding in between  
You're less than I can see  
The more that you'll control  
I want to feel the warmth  
But all I feel is cold  
\*My eyes are letting me see  
(I want them to)  
You know your making me bleed  
(I want you to)  
Why won't you listen to me?  
(I want you to)  
Look what its doing to me  
I know that I push you and you fall  
I'm shaking and I want it all  
I will use you  
I will make you  
I will give and take and break you  
Am I like you?  
Falling into  
I don't know who what's turned into now\*  
If I fell into a hole  
Would I even care?  
I spin out all the anger  
And I sucked another spare

I swallow what you give  
It cuts me at the seam  
Catch everything that spills  
And fill it up with me

\*

My eyes are letting me see  
You know your making me bleed  
Why won't you listen to me?  
Look what its doing to me  
I know that I will (I will)  
Give in (Give in)  
Descend (Descend)  
Again (Again)  
I will (I will)

Take in (Take in)  
Caring (Caring)  
Again  
I will use you  
I will make you  
I will give and take and break you  
Am I like you?  
Falling into  
I don't know who what's turned into now  
Am I like you?  
I don't know who what's turned into now
