

Gravity Kills "Never"

Visit "[Never](#)" on MotoLyrics.com

I like to live alone
But it's crowded inside sometimes
Look right into a lover's eye
I thought I could fly
But that has been done before
I'm feeling empty, empty inside

A life I never knew
A room without a view
My life begins in you
My life it ends in you

Like I never, never, never, never
Never been here before
Never, never, never, never, never
Never been here, been here

Like to be left alone forever in time
Loved right, lived wrong in another life
I thought I could fly
But that has been done before
I'm feeling hopeless, hopeless inside

A life I never knew
A room without a view
My life it ends in you
My life begins in you

Like I never, never, never, never
Never been here before
Never, never, never, never, never
Never been here, been here

It's like a different disease
Burning inside of me
It's like a different disease
Don't deny what's out of your sight
I get drawn into the light

A life I never knew
A room without a view
My life it ends in you

My life begins in you

It's like I never, never, never, never
Never been here before
Never, never, never, never, never
Never been here, been here

It's like I never, never, never, never
Never been here before
Never, never, never, never, never
Never been here, been here
