Let 'em eat you till you're bleeding
Violated, penetrated
Pushing your head under
Only let them see you scar

Take one pill to make you sane
Another one to take your like
One you never take
Suffocating all for nothing
One will break you down
Suffocating all the same

Like you want to like you want to
Suffocating like you want to
Contemplating dirty play thing
Suffocate

Looking through a blind man's eye
What I'm born to, needle torn through
Now the hole is gaping

Standing in your way
I will always be insane

Say a prayer for me tonight
Let it break you down
Suffocating all the same

Like you want to like you want to
Suffocating all for nothing
Suffocating like you want to
Suffocate

The first time is make believe
You can't tell me what I am
I won't take the master plan
The last stone is cast for me
When you prostitute yourself
Mouth open you can't breath
Hands reach but no one helps
The last one to fall is standing

Stop your shaking, all the time you're wasting
Take you with me while your heart just fades to gray
Suffocating all for nothing

Suffocating all the same
Suffocating like you want to
Like you want to like you want to
Suffocate
