{Background} Lets go you know it. Come on,(yo) come on, come on

{Nyanda} Brick and Lace (come on) first production.

Ya du kno (put em up, \*rolling tongue\*)

Chorus:

Stay with me

Can you stay a little longer (that's where ya needs to be)

Cause every time you're near me these feelings get stronger (uh oh)

Stay with me (why don't ya stay with me)

Just stay a little longer (that's where ya gots ta be)

I know It's getting late

but won't you stay with me

Da, da, da, dut

Don't know why it is you make me smile (yeah)

There's somethin about you (somethin about you)

I like your style (uh huh, uh huh)

The way you look at me there's my heart

It's you I've always wanted and I knew it from the start

(knew it from the start. Ya du kno)

{ahhh uhhh ahhh}

All my life I've been waiting up for you

Baby boy don't ya know I adore you (Oh whoa Oh)

{and it feels so right}

When you touch me my body so tender

Don't you know that this love is forever (ah, so won't you)

Chorus:

Stay with me

Can you stay a little longer (that's where ya needs to be)

Cause every time you're near me these feelings get stronger (uh oh)

Stay with me (why don't ya stay with me)

Just stay a little longer (that's where ya gots ta be)

I know It's getting late

but won't you stay with me

Da, da, da, dut

Your sexuality just blows my mind (blows my mind)  
So attracted to you, and satisfied (got me feeling  
good)

The way you touch me I just can't describe (uh no huh  
no)

So special to me feelings I can't hide (yo can't hide the  
feeling)

{ahhh uhhh ahhh}

All my life I've been dreaming about you  
Never thought I'd meet somebody like you (oh whoa  
oh)

{and it feels so nice}

Feels so nice with your arm on me side

Make my temperature rise

And me juss can't deny this

{so won't you, so won't you}

Chorus:

Stay with me (why don't you stay with me)

Can you stay a little longer (It's where ya needs ta be)

Cause every time you're near me these feelings get  
stronger (Every time, every time)

Stay with me (why don't ya stay with me)

Just stay a little longer (that's where ya gots ta be)

I know It's getting late

but won't you stay with me

Da, da, da, dut

Whoa I've never dreamed you'd be here next to me  
Please don't let it end won't you stay with me yeah  
Mesmerized

by your smile

Oooh ya got me hypnotized

(?) This part is confusing

There is no question

This situation

The way you lookin good you get a standing ovation

(?) More confusion

Just can't deny not a single invitation

Friends say I am glowing

(?)

It's you that got me feeling

Make me cry out to this ceiling

{and it feels so right}

Now that you're here I don't wanna let you go

So won't you

Chorus:

Stay with me (why don't you stay with me)  
Can you stay a little longer (It's where ya needs ta be)  
Cause every time you're near me these feelings get  
stronger (Every time, every time)  
Stay with me (why don't ya stay with me)  
Just stay a little longer (that's where ya gots ta be)  
I know It's getting late  
but won't you stay with me  
Da, da, da, dut

Just a little bit  
And a little bit

Chorus:  
Stay with me (why don't you stay with me)  
Can you stay a little longer (It's where ya needs ta be)  
Cause every time you're near me these feelings get  
stronger (Every time, every time)  
Stay with me (why don't ya stay with me)  
Just stay a little longer (that's where ya gots ta be)  
I know It's getting late  
but won't you stay with me  
Da, da, da, dut
