Briskeby - Wide Awake

I'm only human, what a lousy excuse
but we're playing a game now, I'm meant to loose
consider me dangerous, consider us a crime
when I fall asleep now, I can't close my eyes

Ref.

Wide awake, I'm wide awake and I say
I don't know how, I don't know when
I don't know how, I don't know when

It's you versus me now, just the two of us
hard to tell the difference between hatred and lost
we can't stay together, we can't stay alone
a night full of pleasure, to scream and moan

Ref.

Wide awake, I'm wide awake and I say
I don't know how, I don't know when
I don't know how, I don't know

Wide awake, I'm wide awake and I say
I don't know how, I don't know when
I don't know how, I don't know when

Ref.

Wide awake, I'm wide awake and I say
I don't know how, I don't know when
I don't know how, I don't know

Wide awake, I'm wide awake and I say
I don't know how, I don't know when
I don't know how, I don't know when
I don't know how, I don't know when
I don't know how, I don't know when
