All eyes on Her from dawn till dusk
Hanging on Her every word
Kings and Queens never saw such a fuss
Her Servants are waiting to serve

Sally Ann Sally Ann
Oh when you dance
Every move that you make is amazing.
Take my Heart Take my Hand
Hey Sally Ann
Life will be all that you make it.

I must have got caught in your hair so bright
Got lost in your eyes so blue
I followed around in circles all night
For a chance to dance with you

It breaks my heart to hear her cry
I'm a Fool for Her for sure
See me swallowing my pride
She got me crawling on the floor
