Hey You, you lost your only friend  
You can't believe you're broken heart will ever mend  
But every mountain has it's faces that'd make you want  
to stop  
On this so unwelcome journey from the bottom to the  
top.

Move along  
I believe there's Something Beautiful to see  
Move along  
I believe there's Something Beautiful  
Just waiting for you and me

I know you'll never count the tears you've cried  
Though you've asked a million questions  
No one could tell you why  
A single soul is chosen to be the one put to the test  
But there will be some consolation for a heart that  
never rests

The years will make us older  
The winters make us colder  
And there's one more thing I've come to know for sure  
There's no bitterness that smolders, no chip on any  
shoulder  
That a random act of kindness couldn't cure

Hey You, you lost your only friend  
You can't believe you're broken heart will ever mend  
But every mountain has it's faces that'd make you want  
to stop  
On this so neverending journey from the bottom to the  
top.
