America is calling
Lets care enough to give our very best
For if we give our very best
I know that we will do more than pass the test

(speaks)
What are you doing Louis, get of of me.
Think about it what if you and me was to die right here
tonight
whitout ever do it.
It, Oh my god let me out of here Louis,
are you crazy they dropping bombs out there.

Yeah
Lets do it for our country
The red, white and the blue
Its Uncle Sam who's asking
So your mother will approve
Tomorrow i'll be fighting and i'll win this war for you
Lets do it for our country
Our country wants us to

(speaks)
Bullets are exploding
They'll soon be at the door
Give something to america you never gave before

Yeah
Lets do it for our country
The red, white and the blue

(speaks)
but are you sure my mother will aprove
your mother don't even have to known about it Sharon
and you'll think were old enough to go,
all the way. oh Louis, but Louis you might get hurt.

(speaks)
Just think about it Sharon
it wou'll be like is we're doing it for the Statue of Liberty
or the Grand Canyon

yeah the New York Yankees
It wou'll be like we're doing it for Disney Land!

(sings)

Yeah!

Let's do it for our country the red, white and the blue
It's not a lot to ask of us
Our parents will approve
you'll be a mighty soldier before this night is true
Let's do it for our country

(speaks)

We owe it to our country

(sings)

Let's do it for our country
Our country wants us to
