The Parts of a Flower are so constructive
That very very often
the wind will cause Polination
If not then a bee
or anyother nectar gathering
creature can create
the same situation
Yes, anything that get the pollon to the pistills
right on the list
I'll try to make it crystal clear
a Flowers insationable passion
turns its life into
a circus of dibuary
now you see how the stainum
get its lusty dust
onto the stigma
and why this frenzy chlorophil
and its orangy starchy sprays no anigma
We call this quest for satisfaction
a what class?
a photoperiodical Reaction!
Oh thats good, oh thats very good
Hey, I'm lost where are we?
Chapter 2 page 5

Reproduction
Reproduction
Put your pollon tube to work
Reproduction
Reproduction

Reproduction
I don't even think they know what a pistill is
I got your pistill right here

Next Chapter
In an abstract way
the same thing applies to the reproduction system of a
more complex life form
but we are now dealing with sexual responces
are there any other questions

before we begin reading?
Is it possible the female member
of some sex on a couch could
like get this guy all hot and she never even knew it
When a warm blooded mammal
in a tight little sweater
starts pulling that stuff
she's saying that she really wants to do it
cause they change their tune when you've got em
in the back seat
with his heart beating faster
they make it sound like a track meet
Yeah and all they can do is say
nononono nononono nonononono

Reproduction
Reproduction
Baby give it to me now
Reproduction
Reproduction
Is that all you think about
Reproduction
Come on baby
show me that you really love me so
I think i'm gonna throw up
Where does the pollon go?

The human being is
the only one who can conciously
keep track of his number of offspring
Are there any comments on this?
Mr. Stewart is it true that guys like you
you know mature and all
carry some protection them
for sexual occasions?
oh god
Whats the big deal
Can't a girl just do that thing in a book
where she adds up the days of her
what do you call it
Mentalstreation
oh yeah and what's he gonna say
if the numbers don't add up right?
yeah, yeah, yeah

Reproduction
Reproduction
Hope he's proud fo what he's done
Reproduction
