Set off for America far across the ragin' sea  
From the frozen coves of my island home  
To the land of liberty  
I have to leave my girl behind  
Until I make my way  
Oh Molly dear please wait for me  
I'll come back for you some day

We landed hard in Boston  
and I'd never seen the like  
A small boat boy from around the bay  
In this sea of shining lights  
Two days in I got a job  
Building towers of high steel  
I had to learn, to not look down  
And I quickly learned to kneel

All I need is one good nights sleep  
In your loving arms, to mend  
We sleep to dream  
And we dream to live

Will I live to love you again

I saved every cent I could  
But the months turned into years  
Then a letter came from Molly  
and confirmed my deepest fears  
She would no longer wait for me,  
she'd found a better man  
I might have been in America,  
but my heart was broken  
In Newfoundland

My working days are over now  
And my children have all grown  
I did the best with what I had  
But some days I feel alone  
I often wonder where you are  
Do you still know my name  
Deep inside this old man's heart  
There's a love that still remains
