

Great Big Sea "Follow Me Back"

Slowly came these words to me
Simple and plain and true
Shelter me when winter winds blow
Only your arms will do

Follow me, follow me, follow me back
Where it all began
Follow me, follow me, follow me back
I'd do it all again

Pardon me, if i may be
So foolish that all i see
You and me a melody
Fitting so beautifully

Follow me, follow me, follow me back
Where it all began
Follow me, follow me, follow me back
I'd do it all again

Spring has come, summer is gone
The sky has turned to gray
Close your eyes memories
Will carry us away

Follow me, follow me, follow me back
Where it all began
Follow me, follow me, follow me back
I'd do it all again

Follow me, follow me, follow me back
Where it all began
Follow me, follow me, follow me back
I'd do it all again
