Religious fanatics and their cosmic christ
Spin doctors liberating giving life
Authenticity judges the politically correct
Denominational axe grinds the spirit from the flesh

Lost divinity in disguise
Goddess in embryo to materialize

Fuming fundamentalists hungry liaty
Cannabalistic naturalist proving fallacy
Burden of proof lies in legitamate faith
Read between the lines of a saving grace

Lost divinity in disguise
Goddess in embryo to materialize

Cut to the bone how deep it goes
Cut to the bone blood flows

Lost divinity in disguise
Goddess in embryo to materialize

Rejection of supernatural truth
Omesticated academic agnostic fools
Theologins with the promises of politics
Counter cultural wisdom rhetoric

Lost divinity in disguise
Goddess in embryo to materialize

Lost divinity in disguise
Goddess in embryo to materialize
