Hunger grows,
Through the town as food is craved...
Hunger grows,
Through the town as food is craved like a drug.

The little food the people have is worth more than gold.
(Oh)
Days go by as the villagers resources are reduced to
nothing. (To nothing, yeah)
The people can only sit back and watch as they are
consumed,
By the pack of savages that poison...
Poison the town.

Each day a new sacrifice is chosen, (Chosen) (x2)
Hunger grows through the town,
And women are forced to eat their own young.
Every fight is a food fight when you are a cannibal.

The people that are left have died along with the rest.
Their hunger grows. (x4)

Every fight is a food fight when you are a cannibal.
